INTRODUCTION

Powered by

Today's economy is hugely **wasteful**. Resulting from a system based on the **linear take-make-waste** model, resource extraction and processing account for more than 90% of biodiversity and freshwater loss, while 45% of global GHG emissions stem from how things are made and used, how we grow our food, and how we manage our land and resources. The **circular economy** proposes a new framework defined by eliminating waste, circulating materials and resources, and regenerating nature.

The linear take-make-waste model is no longer working for businesses, people, or the environment – the economics spell it out. On the flip side, the circular economy represents a **USD\$25 trillion** market opportunity by 2050, unlocking USD 700 million in annual material cost savings in the consumer goods industry, among other benefits such as a higher disposable income for households and significant increases to national GDP. Most importantly, **transitioning to a circular system can reduce our carbon emissions by up to 48% by 2030**.

Maya Hassa

Principal, Circular Innovation Fund

"Supporting early-stage innovation is key to achieving a circular economy that can provide long-term sustainable solutions to the challenges of resource scarcity and environmental degradation. By finding new ways to design, produce, and consume goods, we can create a regenerative system that benefits both people and the planet."

ABOUT THE CIRCULAR INNOVATION FUND

The Circular Innovation Fund (“CIF”) is a global growth-stage venture capital fund focused exclusively on circular innovation, striving to positively contribute to climate change mitigation and the circular use of resources. Led by Cycle Capital and Demeter – a team of financial entrepreneurs with years of cleantech-focused capital management experience – the fund’s mission is to accelerate the growth of circular innovation, close the loop on single-use waste and re-design our economy for a more sustainable future. With over €1.6B in assets under management, the combined investment platform is anchored in the ecological transition ecosystem, collaborating with over 120 key institutional and corporate co-investors and partners, and working closely with this network to bolster its portfolio.

CIF counts among its global limited partners base over a dozen corporate, institutional and family office investors with circular economy and impact-oriented mandates, including L’Oreal as an anchor.

CIF aims to foster the circular economy at scale and to positively contribute to climate change mitigation by supporting entrepreneurs who are developing innovative circular technologies & business models. Targeted sectors include packaging solutions to reduce single-use plastics, novel biomaterials made from upcycled waste feedstocks, and platforms for implementing resale/repair/rental business models.

PROGRAM OBJECTIVES

Powered by

The Circular Innovation Fund Acceleration Program aims to **nurture selected pre-seed and seed-stage** companies within the circular economy to **bolster** investment in an **underserved** sector, de-risk future CIF investments, and **support** the build-out of a broader collaborative ecosystem of circular **companies** at all stages of commercialization.

Waste reduction

Sustainable and circular use of natural resources

Measurable, auditable impact

Marius Thebault

Associate, Circular Innovation Fund

"This acceleration program will provide us with access to a wider pool of innovative ideas and offer invaluable support and mentorship for our portfolio companies, allowing us to stay ahead of the curve when identifying and investing in the most promising circular economy projects."

Operated by

**All selected companies will receive 100,000 euros, out of which program costs will be deducted.*

Operated by

PROGRAM SCOPE

WHO SHOULD APPLY ?

Seed or pre-series A startups developing a solution within the program scope sectors with high growth potential, looking for strategic partners and investors.

Applicants' product or service prototype must have been demonstrated in a simulated environment, i.e being at TRL 6 and up (Technological Readiness Level),

Startups must have at minimum two employees and should be in existence for at least two years.

If selected, the company's founder or CEO needs to be available between September 2024 and February 2025 to participate in the cohort, requiring approx. 5 hours of work per week.

Patrick Gagné

CEO, Cycle Momentum

"The Circular Innovation Fund Accelerator Program is an initiative we are proud to partner with. The goal of our accelerator programs is to support companies that offer solutions to climate change by helping them maximize their venture capital funding potential."

PROGRAM OVERVIEW

The CIF Acceleration Program, spreads over 5 to 6 months, responds to the challenges of 5 selected entrepreneurs by offering virtual [workshops](#) and individual [work sessions](#) with seasoned entrepreneurs, [experts](#) and experienced [business people](#) (up to 45 hrs for the whole program).

Get valuable insights from [world-class mentors](#) during 3 diagnostic sessions : we aim at bringing the best experts and partners to provide [guidance](#) and help you driving your startup the right way.

The program also provides access to an established [network](#) of customers and partners, even beyond the duration of the program.

The program ends with a [Demo Day](#), a pitching session in front of a [committed audience](#) of investors and industry specialists active in the clean technology sector.

Joël Tronchon

Europe Sustainable Development Director, L'Oréal Groupe

"The Cycle Momentum team was able to identify, develop and strengthen 4 start-ups offering innovative solutions for the circular economy during the 1st edition of the Circular Innovation Fund 2023 acceleration program, Global Edition. It was a great pleasure and interest for us to bring the experience of the L'Oréal Group to each entrepreneur's acceleration journey, and to have been able to support them in strengthening their impact value propositions."

Andrée-Lise Méthot,

Founder & Managing Partner, Circular Innovation Fund,
Founder & Managing Partner, Cycle Capital.

"The Circular Innovation Fund is dedicated to scaling solutions that positively strive to mitigate climate change and the circular use of resources. In addition to funding, we are excited to collaborate with Cycle Momentum to provide acceleration services and expertise to the most talented early-stage entrepreneurs to bring more innovative solutions to the market."

Stéphane Villecroze,

Founder & Managing Partner, Circular Innovation Fund,
Founder & Managing Partner, Demeter IM.

"Circular Innovation Fund represents a strategic collaboration between institutional & corporate investors, family offices & entrepreneurs to boost circular economy innovation. It is also a unique and promising example of a partnership between 2 prominent fund managers combining their experience, expertise and cultures to support new champions of the circular economy. The acceleration program perfectly demonstrates the objective of the investors and fund managers to positively impact this sector's ecosystem."
