

# Getting involved in health research at NIHR Cambridge BRC?

For the Public an  
introduction to  
Patient and Public  
Involvement **online**

Please register on **Eventbrite**

Our next date is:

**Monday 20 July 2020**  
from 10:30 to 11:30

Our 60 minute virtual session will look at how the Cambridge Biomedical Research Centre supports healthcare research on the Cambridge Biomedical Campus and the different ways that you can get involved in the research.

At the Cambridge Biomedical Campus we carry out world-class research to find new medicines and treatments and in order to do this we need the public's input. There is something for everyone and it doesn't matter how much time you can give.

The session will explore the many ways people can take part in research and why patient and public input is so important to health research. There will also be a Q&A session at the end.
