

## Microsoft - Word Intermediate 1 Day Course

### Overview

This course expands on your basic skills and introduces delegates to useful features that enable you to create complex and professional longer documents with a consistent look and feel. You will use time saving features such as styles, sections and tables as well as looking at more complex printing options using headers and footers. Finally, you will address how to create a mail merge as well as printing envelopes and labels.

### Audience

Users who need to expand their basic skills and become more competent in creating and managing more complex documents.

### Course Objectives

At the end of this course, delegates will be able to produce and manage longer documents efficiently using a variety of techniques as well as mastering tasks such as printing labels and doing mail merges.

### Prerequisites

Delegates should have attended or be familiar with the content of the Word Introduction course.
